Summary: Warner/Chappell Music is an American music publishing company that traces its establishment to Chappell & Co. in London in 1810. Warner/Chappell grew in part due to its acquisition of other music publishers, many of which played prominent roles in New York City's Tin Pan Alley and in the production of shows on Broadway and elsewhere. The Warner/Chappell Collection primarily consists of scores for musicals, most intended for Broadway, but some for film, television, and other venues. The majority of the scores are manuscripts in the hands of arrangers, songwriters, and copyists, and includes combinations of full scores, piano-vocal scores, parts, and lyric sheets. The collection also contains manuscripts for popular songs and works for orchestra, band, and chamber ensembles, as well as a small number of business papers, programs, and cancelled checks.

Acquisition Information

Deposits, Warner Bros. Publications, circa 1987 and 1994

Custodial History

When Warner Bros. executive Harry Cohen prepared a rough inventory of approximately 80 cartons of songs and scores stored in the company's warehouse in Secaucus, New Jersey, in the late 1970s, he realized it was a treasure trove of rare and significant music. In 1982, the press was alerted about the discovery, and Warner Bros. began meeting with the estates of songwriters whose works were represented in the collection. Most estates agreed that it was appropriate for the collection to come to the Library of Congress. The Gershwin and Kern estates requested that the majority of works by these songwriters be separated and become part of separate collections at the Library. From 1985 to 1989, a team led by Robert Kimball inventoried the collection with funding from the National Institute for Music Theater, the National Endowment for the Arts, and several corporate sponsors.

Accruals

No further accruals are expected.

Processing History

DeAnna Whitsitt processed a portion of the Warner/Chappell Collection in the 1990s. Melissa Capozio Jones and Jane Cross completed processing in 2020-2021. Melissa Capozio Jones, Jane Cross, Anthony Edwards, Mark Horowitz, and Alicia Patterson coded the finding aid in 2020-2021.

Transfers

In 1997, one hundred 45 rpm discs from the Warner/Chappell Collection were transferred to the Library of Congress Motion Picture, Broadcasting, and Recorded Sound Division (MBRS) where they were integrated into the 45 rpm collection. In

2021, three 1/4" open reel tapes and one 78 rpm disc were transferred to MBRS, where they are identified as part of the Warner/Chappell Collection (MAVIS collection no. 17457). An inventory of this material is available in the Music Division's collection file.

Scope and Content Note

Materials in the the Warner/Chappell Collection span the years 1880 to 1987, the bulk of which dates from 1920 to 1970. The [Show Music](#) series contains manuscript scores, piano-vocal scores, vocal scores, parts, sketches, and lyric sheets from not only musicals that appeared on Broadway and elsewhere, but also television shows, movies, operettas, plays, ice shows, and two World's Fairs. The shows represented include well-known classics and shows long forgotten, some of which may never have been produced. Even among the classics there are songs that were cut or never performed.

Many of the [Popular Songs](#) likely originated in Tin Pan Alley, though a few were composed for advertisements. Prominent composers and songwriters represented in the series include Harold Arlen, Milton Babbitt, Claude August "Bennie" Benjamin, Irving Berlin, Irving Caesar, Sammy Cahn, Hoagy Carmichael, B. G. DeSylva, Vernon Duke, Rudolf Friml, George Gershwin, Oscar Hammerstein II, E. Y. Harburg, Fletcher Henderson, Herman Hupfeld, Mary Rodgers, Sigmund Romberg, Harold Rome, Dana Suesse, Fats Waller, and Kurt Weill. The songs are represented by manuscript piano-vocal scores, parts, sketches, lead sheets, and lyric sheets.

Please note: During processing we discovered that not all the information associating songs with particular shows is accurate, and the names of some songwriters may be missing, incomplete, or misleading. Song titles were largely transcribed from the scores themselves, and these may differ from their final or known versions. We have made some corrections if we discovered them and felt they were likely to cause serious confusion, but we assume there are many we missed, so information provided in this finding aid should not be assumed to be definitive. Please be aware that there are song titles with outdated or offensive language.

Manuscript scores and parts chiefly comprise the [Concert Music and Arrangements](#) series. The ensembles range from orchestra, band, big band, jazz orchestra, and choir to smaller chamber groups, including solo instruments with piano, vocal duets, trios, and quartets.

The [Programs](#) series consists of programs and playbills for musical theater productions and variety shows from 1924 to 1930 on Broadway, in London, and in several cities in the United States and Australia. Many of the playbills contain annotations, and several have corresponding music located in the Show Music series.

The [Business Papers](#) consist of papers and cancelled checks. The papers include rights and royalties agreements, lists of works, correspondence, contracts, and licenses primarily concerning Cole Porter and Kurt Weill, and the cancelled checks somewhat illuminate the daily operations of a music publishing business. Checks dating from 1920 to 1932 from several different music publishers are made out to composers, arrangers, lyricists, printers, engravers, advertisers, equipment suppliers, paper companies, and so forth.

BOX 318-331, 370-371, Concert Music and Arrangements, 1902-1967 373-374, 407-408

Manuscript scores and parts chiefly comprise this series of music for ensembles ranging from orchestra, band, big band, jazz orchestra, and choir to smaller chamber groups including solo instruments with piano, and vocal duets, trios, and quartets. Some of the songs may be from shows but were arranged to be recorded or performed in concert by themselves. The arrangers and orchestrators are noted when they could be identified. Of particular note are the eight works by Israeli composer Shalom Aharoni, the many arrangements by Sigmund Romberg, and the seven songs arranged for Ed McMahon that appeared on his 1967 album *And Me...I'm Ed McMahon*.

Arranged alphabetically by composer and title therein.
